Squire Tradwell

Dear Sir

Allow me to congratulate you on the glorious Democratic Victory which we have just achieved over the great Embodiment of Whig principles. Our Country is again redeemed from taxation monopolies, misrule and injustice - Austere is crushed by the strong arm of an intelligent people - their voice has come from hill and valley we will be free - this is a bright epoch in the history of our union - every man may enjoy the peaceful fruits of his labour and democrats may drink egg-nog and when their hearts are warm hurra for that other man. The 100 guns are thundering for Liby. She has put her seal of approval upon our State. Pennsylvania is a lead horse in that carriage of State to convey Polk to the White House. If you have a preacher in Lamas just call up on him to pray for the Whigs - they are cursing themselves and their Embodiment too - Fruehlinghuysen is bleeding at the mouth and basins has stuck his Uncle Henry between the fifth ribs - all hope is lost. Squire how does your pulse beat - Every patriotic bosom swells with pride mine beats high with the happy anticipation of increased prosperity - general intelligence, peace, piety and perpetual union of these confederated States. Est perpetua
